Mr Chua Ah Tek (Registrar)
Ms Yee Weng Yan (Biology)
Mr Eng Fwu Ji (Mathematics, lecturer-in-charge of department)
If you have completed SPM, O Levels or other equivalent examinations and you are thinking about a university education, then Cambridge A Levels at Stamford College is your stepping stone.

Cambridge International AS and A Levels are internationally benchmarked qualifications providing excellent preparation for university education. They are taken in over 125 countries and are widely recognised by universities and employers alike. Every year, thousands of Cambridge International A Level graduates gain places at prestigious universities worldwide - including the UK, USA, Canada, New Zealand and Australia.

Stamford College is one of the first centres in Malaysia to offer the A Level programme in both Science and Arts subjects to meet the various needs of students. Students are given the flexibility to take up their preferred combination of subjects. We have well equipped science laboratories, conducive lecture rooms, library with computer facilities and easy access to Cambridge online resources.

Stamford students have the advantage of receiving personal attention and hands-on experience in the lab due to small class size with the class capacity of not exceeding 25 students.

Come and join us for a rewarding and exciting new experience in preparing for the Cambridge A Levels.

**Government Bursary Programme for A Levels**

Students with 9A+ and above in 2011 SPM exam are eligible for government Bursary covering full tuition fees plus monthly allowances.

Stamford College is one of the colleges nominated for the Bursary Programme for A Levels.

Call us at 03-7956 2366 now for more information.

**Intake: 2 July 2012**
At Stamford College, we provide students with a wholesome learning experience by equipping them with interpersonal and soft skills through various community services and “beyond classroom” activities.

Voices from UK...... Pei Ying

As the class size in Stamford College is small, I am able to get personal attention from lecturers. I could seek assistance from lecturers after class hours and even hand in extra exercises and essays to be marked. The lecturers are also very dedicated and concerned with the students’ individual progress and often provide us with individual feedback. Besides that, the lecturers were helpful in every possible way. During my course of study, my Mathematics lecturer was kind enough to help me out with SAT syllabus that was not part of the A Level course. Stamford College also practice a very interactive class culture. Classes are fun and informative! I really had a great time in Stamford College that form the part and parcel of my life.

At Stamford, you have everything to gain. Together with our dynamic and dedicated team of teaching staff, we strive to impart knowledge in a creative manner thereby, preparing our students for admission into various top universities worldwide.

Stamford A levels is an enriching, mind-empowering and rewarding programme. This is truly an opportunity not to be missed, so make the right choice now!!!
